PROFESSIONAL SUMMARY

A dedicated Fraud Prevention and Data Security professional focused on translating policy into actionable technical defenses. I specialize in building resilient security postures by integrating automation, data analytics, and cross-functional collaboration. My recent focus has evolved from technical execution to orchestrating a cohesive defense framework—extending security governance from core operations to supply chain partners and regional branches. I am passionate about combating telecom fraud, ensuring data privacy compliance, and leveraging emerging technologies to stay ahead of financial crime patterns.

EDUCATION

The Hong Kong Polytechnic University | Bachelor's degree in Information Security (CGPA:3.0/4.3)

09/2020 – 06/2022

Hong Kong Community College, The Hong Kong Polytechnic University | Associate's degree in Information Technology (CGPA:3.23/4.5)

09/2018 – 06/2020

WORK HISTORY

FRAUD AND DATA SECURITY OFFICER | 08/2025 to Current

Hutchison Telecom Hong Kong

1. Large-Scale Data Analysis for Anomaly Detection & Predictive Modelling

- Analysed billions of telecom transaction records using Splunk and Python, identifying anomalous patterns (e.g., fraudulent calls).
- Developed rule-based and statistical detection logic to flag suspicious activities, improving detection efficiency by 20%.
- Automated monthly reporting workflows with Power Automate, reducing manual effort by 20%.

2. Data Integrity, Source Reliability & Risk Assessment for Operational Systems

- Conducted DLP audits and risk scoring using Forcepoint and Power BI to ensure data security and compliance.
- Managed third-party data vendors and performed on-site compliance audits at outsourcing call centres.

3. Cross-Team Collaboration, Reporting & System Documentation

- Coordinated with ICAC, Police, OFCA and other government bodies on joint investigations
- Drafted meeting minutes and analytical summaries for C-level executives (CEO/CFO).
- Facilitated data protocol unification across Macau/HK branches and external vendors.

PROGRAMMER | 10/2023 to 05/2024

Sonnet Business Systems Ltd.

Medical Systems & Office Automation

Delivered software solutions for healthcare clients, enhancing operational efficiency and data processing capabilities.

- Developed and tested office automation software and medical systems using Delphi, tailored to client medical requirements, resulting in a 30% increase in operational efficiency.
- Built data analysis tools integrating Delphi, Excel, and VBA to process medical sample data, streamlining reporting workflows and improving productivity by 30%.
- Conducted large-scale data analysis on over 1 million patient records using Microsoft SQL Server, supporting data-driven decision-making in healthcare operations.
- Provided ongoing technical support and maintenance for medical institution software systems, ensuring high availability and user satisfaction.
- Collaborated with external vendors and suppliers to enhance software functionality and integration, contributing to a 30% improvement in system performance.

- Customized medical report generation modules using Delphi, automating detailed clinical and operational reports and reducing manual effort by 30%.
- Documented development processes, version updates, and created comprehensive user manuals to facilitate software adoption and end-user training.

PROJECT ASSISTANT | 06/2022 to 02/2023

The Hong Kong Polytechnic University

Full-Stack Development & System Optimization

Led end-to-end development and optimization of web platforms, enhancing performance, usability, and security.

- Spearheaded front-end redesign and UI enhancement using WordPress and Bootstrap, improving user experience and operational efficiency by 30%.
- Revamped back-end architecture and database structure with WooCommerce, MySQL, and Apache, boosting system performance and data processing efficiency by 30%.
- Conducted comprehensive User Acceptance Testing (UAT), with emphasis on cross-platform responsiveness and compatibility.
- Configured and maintained infrastructure security protocols, reducing potential data and financial loss risks by 30%.
- Documented development progress and created user manuals to streamline onboarding and support ongoing system use.

STUDENT ASSISTANT | 05/2021 to 08/2021

The Hong Kong Polytechnic University

Supported the development, optimization, and maintenance of the Finance Office website, enhancing user engagement and operational efficiency.

- Developed and tested the official Finance Office website using Sitecore CMS, ensuring functionality aligned with departmental requirements.
- Performed photo editing and graphic optimization with Adobe Photoshop to improve visual content quality.
- Analyzed website traffic and user behavior through Google Analytics, providing insights that contributed to a 30% improvement in content strategy efficiency.
- Assisted in SEO marketing efforts to increase organic search visibility and drive targeted traffic.
- Created comprehensive user documentation for Google Analytics and Sitecore CMS to facilitate team training and ongoing system use.
- Collaborated with team members to implement timely website updates and feature enhancements, improving workflow efficiency by 30%.
- Conducted A/B testing to optimize website layout and responsiveness across devices, leading to a 30% increase in user engagement and platform performance.

SKILLS

- | | |
|--|---|
| ● Big Data Analysis, Data Mining | ● Office Automation |
| ● DLP Forcepoint, Risk Assessment, Internal Audits | ● Splunk, Thales Secure File Transfer, PGP Shredder |
| ● Third Party Risk Management, Incident Response | ● Stakeholder Management |
| ● Chinese (Mandarin, Cantonese), English | ● SQL, Microsoft Office |
