## PROFESSIONAL SUMMARY

A dedicated Fraud Prevention and Data Security professional focused on translating policy into actionable technical defenses. I specialize in building resilient security postures by integrating automation, data analytics, and cross-functional collaboration. My recent focus has evolved from technical execution to orchestrating a cohesive defense framework—extending security governance from core operations to supply chain partners and regional branches. I am passionate about combating telecom fraud, ensuring data privacy compliance, and leveraging emerging technologies to stay ahead of financial crime patterns.

## EDUCATION

**The Hong Kong Polytechnic University | Bachelor's degree in Information Security**  
09/2020 – 06/2022

**Hong Kong Community College, The Hong Kong Polytechnic University | Associate's degree in Information Technology**  
09/2018 – 06/2020

## WORK HISTORY

**FRAUD AND DATA SECURITY OFFICER | 08/2025 to Current**  
**Hutchison Telecom Hong Kong**

### Key Achievements & Role Evolution

- Cut financial losses by 30% via fraud prevention and secure system implementations; advanced from technical executor to proactive defense coordinator.
- Boosted operational efficiency by 20% using Splunk, Power BI, Python and Power Automate.
- Extended compliance governance to cross-departmental and outsourced operations.

### 1. Telecommunications Crime Prevention & Intelligence

- Reported monthly fraud trends to OFCA; coordinated with Police CCB on scam probes. Identified anomalous call volume patterns via daily monitoring and provided evidence to CCB within a week, contributing to the swift closure of a HK\$530,000+ hotel-based fraud operation.
- Led credit card and e-payment fraud investigations with payment gateway providers, reducing losses by at least 30%.
- Developed fraud detection policies using Splunk and Power BI, improving investigative efficiency by at least 20%.

### 2. Corporate Fraud, Data Security & Third-Party Risk

- Reduced data breach and internal fraud losses by 30% through Forcepoint DLP audits and security system deployments.
- Investigated mobile fraud on social media and apps; monitored retail operations to mitigate threats.
- Conducted security audits at mainland outsourcing call centers, managing third-party data risks.
- Used Power BI to analyze DLP risk controls, ensuring sensitive data protection and submitting reports to CFO for decision-making.

### 3. Security Operations & Cross-Functional Coordination

- Spearheaded fraud system project coordination, translating operational needs into technical requirements and aligning cross-functional teams to enhance system flexibility and consolidate fraud response.
- Promoted frontline compliance with HK regulations (PDPO, Competition Ordinance).
- Conducted compliance reviews with cross-departmental teams on TDO, CO & PCO; ensured all business activities aligned with legal requirements, mitigating risks; drafted meeting minutes and reported to CEO for strategic decision-making.
- Orchestrated cross-functional coordination with retail partners and external vendors on secure e-voucher lifecycle management
- Collaborated with compliance teams to operationalize AML pattern detection in line with HKSAR regulatory requirements.
- Coordinated with multiple vendors and internal teams on encrypted SIM provisioning, translating security and compliance requirements into technical workflows using Thales SFT, Python, and PGP Shredder, ensuring end-to-end data integrity across all parties.

- Performed bi-annual manual stock audits at retail stores and for sales staff, ensuring full compliance with company policies and legal requirements to prevent risks to both the company and customers.

### **Key Evolution**

Acted as a coordination hub for security initiatives – partnering with Macau/HK branches on digital campaigns, cross-departmental teams on SIM audits, and external vendors to unify security protocols.

**PROGRAMMER | 10/2023 to 05/2024**

**Sonnet Business Systems Ltd.**

Medical Systems & Office Automation

Delivered software solutions for healthcare clients, enhancing operational efficiency and data processing capabilities.

- Developed and tested office automation software and medical systems using Delphi, tailored to client medical requirements, resulting in a 30% increase in operational efficiency.
- Built data analysis tools integrating Delphi, Excel, and VBA to process medical sample data, streamlining reporting workflows and improving productivity by 30%.
- Conducted large-scale data analysis on over 1 million patient records using Microsoft SQL Server, supporting data-driven decision-making in healthcare operations.
- Provided ongoing technical support and maintenance for medical institution software systems, ensuring high availability and user satisfaction.
- Collaborated with external vendors and suppliers to enhance software functionality and integration, contributing to a 30% improvement in system performance.
- Customized medical report generation modules using Delphi, automating detailed clinical and operational reports and reducing manual effort by 30%.
- Documented development processes, version updates, and created comprehensive user manuals to facilitate software adoption and end-user training.

**PROJECT ASSISTANT | 06/2022 to 02/2023**

**The Hong Kong Polytechnic University**

Full-Stack Development & System Optimization

Led end-to-end development and optimization of web platforms, enhancing performance, usability, and security.

- Redesigned front-end UI with WordPress and Bootstrap, and restructured back-end database using MySQL, boosting user experience and system performance by 30%.
- Conducted User Acceptance Testing (UAT) with a focus on cross-platform responsiveness and compatibility.
- Configured infrastructure security protocols, reducing potential data and financial loss risks by 30%.
- Documented development progress and created user manuals for ongoing system support.

**STUDENT ASSISTANT | 05/2021 to 08/2021**

**The Hong Kong Polytechnic University**

- Analysed website traffic and user behaviour using Google Analytics, providing insights that improved content strategy efficiency by 30%.
- Performed A/B testing to optimise page layout and responsiveness across devices, increasing user engagement by 30%.
- Assisted in SEO marketing to boost organic search visibility.
- Developed and tested the official Finance Office website using Sitecore CMS, ensuring functionality met departmental requirements.
- Created user documentation for Google Analytics and Sitecore CMS to support team training.
- Project Link: <https://www.polyu.edu.hk/fo/>

## **SKILLS**

- Big Data Analysis, Data Mining
- Digital Forensics, Logs Review and Monitoring
- DLP Forcepoint, Risk Assessment, Internal Audits
- Third Party Risk Management, Incident Response
- Chinese (Mandarin, Cantonese), English
- Office Automation
- Splunk, Thales Secure File Transfer, PGP Shredder
- Stakeholder Management
- SQL, Microsoft Office
